

The Timeless Motor Company Motorcycle Collection

El Paso's own Mean Street Products, purveyor of custom forks used by all the biggies, has reached its own fork in the road and branched off with a new division, Timeless Motor Corporation, dedicated to reproducing a vintage bike from a well known company that shall go nameless. Mike Hanlon has spent the last ten years exactly replicating this gorgeous single-cylinder bike which is available in two versions, a Boardtrack Bike and a Classic Street bike. The details are absolutely astounding and on close scrutiny, this is no poor imitation of the real thing with parts made by uncaring overseas workers, but a

classic ride that you can actually ride. With brass, bronze, and nickel plated components strewn throughout, if it didn't say Timeless, you'd think it was the real thing. Pictures don't begin to do these bikes justice. Call Mike at 915-592-6887 or see www.timelessmotorcompany.com for more info.
